

THE DENTAL IT EXPERTS

What do more than 800 practices like yours have in common?
Advantage Technologies

The Dental IT Experts

Advantage Technologies has worked with practices just like yours since 2000. We not only understand the IT side of the equation, but we also understand dental and security. Whatever your practice management, imaging, or CBCT, we have the knowledge and experience to make it all work together. Working within the requirements of HIPAA and HITECH can be daunting, but we understand how these regulations can affect the IT system in your practice. More importantly, we know how to help keep you compliant and secure.

IT solutions that protect your practice and patients

Certified engineers who have extensive dental experience

Confidence in knowing your IT solution is HIPAA compliant

One call for all things technology – no “finger pointing”
